**Important Notes:** Due to the need to group shell stands we regret that locations cannot always be allocated at the time of booking. However, exhibitor's wishes will, as far as possible, be taken into account in the final layout. If you need to operate portable equipment such as compressors or pumps which require higher than normal voltage/ current, you should inform the organisers at the time of booking.

## Exhibition Costs

Cost of participation is based on the purchase of exhibition space for pop-up displays in the parallel supply chain exhibition with a separate application to secure FREE additional space for live demonstrations. Included in the cost of exhibiting will be ONE FREE delegate ticket to attend the keynote presentations.

Pop-up/static exhibition space includes access to single phase power socket, max. two people per stand, buffet lunch and other light refreshments throughout two-day event. Space is available at a cost of **£200.00 per square metre** (plus VAT) over the two-day period. There are various exhibition space sizes available as shown below:

Space type and size	Area
AS – 3 x 1.5m	4.5m <sup>2</sup>
BS* – 3 x 3 x 1.5m	6.75m <sup>2</sup>
CS – 3 x 2m	6m <sup>2</sup>
DS – 4 x 1.5m	6m <sup>2</sup>
ES – 4 x 2m	8m <sup>2</sup>

\*Denotes 'L' shape corner space

Arrangements can also be made to supply a pre-erected shell stand for the duration of the exhibition period at an additional cost as indicated below. Shell stands (modular booths of individually connected panels) are covered in a fabric suitable for the Velcro fastening of lightweight posters and panels. Included in the cost of a shell stand is transportation and erection, a nameboard (basic font), two spotlights and 1 x 3-pin socket.

Shell type and size	Shell Price
AS/S – 3 x 1.5m	5 panels - £155
BS/S* – 3 x 3 x 1m	8 panels - £200
CS/S – 3 x 2m	6 panels - £170
DS/S – 4 x 1.5m	6 panels - £170
ES/S – 4 x 2m	8 panels - £200

**NOTE:** All pop up stands spaces will be available for finishing from 11am till 1630hrs on the afternoon before the event (6th April 2011) and must be removed by 1700hrs on 8th April 2011. Separate arrangements will be agreed with those companies wishing to install, commission and remove large items of equipment intended for the live demonstrations equipment.

## Terms and conditions

Risk and method statements may be requested by the host site

- Allocation of Space**
  - The organisers will notify the exhibitor within 7 working days of receipt of an application for exhibition space whether a space has been reserved and if so provide a booking reference code which must be used in subsequent correspondence.
  - If for any reason the exhibitor is not allocated a space then monies accompanying the application will be returned in full.
  - The organisers reserve the right to alter the allocated stand position if deemed necessary in order to provide a viable layout.
  - The organisers reserve the right to refuse any application for space without giving any reason for such rejection.
  - If, following the placing and acceptance of a booking, and within six weeks of the exhibition date (including bookings taken within this six week period) the exhibitor gives notice that he/she no longer wishes to attend, then the organisers reserve the right to refuse a refund. If cancellation occurs more than six weeks before the exhibition date then the organisers may, at their discretion, return 50% of the booking fee.
  - All security details required to attend an exhibition must be provided with the application form and the organiser must be notified of any subsequent changes no later than 4 weeks prior to the event.
- Payment for Exhibition Space**
  - Unless stated otherwise on the booking form/brochure provided by the organisers, the charges for exhibition space does not include any stand, fittings or furniture. Where possible the organisers may try, at their discretion, to ensure that the exhibitor has access to normal furniture such as tables and chairs if they are needed, but this cannot be guaranteed and exhibitors are therefore advised to provide all such fittings and embellishments needed for their space including lifting equipment.
  - All application forms are offered, and bookings accepted solely on a **payment with booking basis**. The organisers reserve the right to refuse any application that does not comply with this rule.
- Duration of the Event**
  - The duration of event will be as follows **7th April 08.30am - 4.00pm; 8th April 08.30am - 2.30pm**.
  - In completing the booking form the exhibitor agrees to prepare and have his/her stand available the previous afternoon (or at another time if agreed in advance with the organisers) and will man his/her stand for the duration of the exhibition and **will not begin dismantling the stand until the exhibition closing time has passed**.
  - If the exhibition includes an evening preview reception this will be clearly indicated in the booking form brochure.
  - An application to take part in the exhibition will also require that the exhibitor prepares and mans his/her exhibition stand for the duration of the evening preview reception, where applicable, as will be indicated in subsequent correspondence.
- Fire & Safety**
  - Materials used by the exhibitor in the construction and finishing of his/her stand and exhibits, or during demonstrations or dismantling must not present a fire hazard to the exhibitor, other exhibitors or the public. The use of compressed gas or other explosive or highly inflammable substances require prior approval from the organisers.
  - All exhibitors' **equipment must be confined within the floor plan boundary** of the stand space booked and must not offer a hazard to persons attending the exhibition or other exhibitors in any way. **Passageways, stairways and fire exits shall be kept free of obstructions at all times**.
  - Exhibitors and their staff must conform to the accepted safety standards of the day. Equipment must conform to the relevant legislation, regulations, British or EC standards, etc. as appropriate and be maintained and operated in a safe condition. Displays involving equipment which move shall not be left unsupervised.
  - All electrical equipment must be **PAT tested** and hold a **current certificate**.
  - Exhibitors are responsible for ensuring they are familiar with the 'host site' fire evacuation procedures and site rules.
  - All exhibitors should note that all venues operate a no smoking policy.
- Preparation and Removal of Pop-up exhibition stands**
  - The exhibitor is required to notify the organiser at least six weeks before the exhibition if the exhibitors intended display or equipment breaches any of the following guidelines:
    - Stands will be no higher than 2.5 metres (unless otherwise stated)
    - Equipment will have a floor loading footprint no greater than that of a person weighing 220lbs
    - Electrical requirements will not exceed that capable of being provided by **one 3 three pin domestic socket outlet**.
    - If there is a need to operate portable equipment, such as pumps or compressors which require a higher than normal current, exhibitors are required to inform the organisers at least 4 weeks prior to the event.
    - The exhibitor will remove all packaging, display materials and any other additional presentation equipment immediately after the close of the exhibition.
    - The organisers will not be responsible for the delivery, storage or transport of exhibitors' own equipment. Advance deliveries should be organised directly with the host site. The organisers take no responsibility for accepting or security of such deliveries.
- Damage to the Exhibition Venue**
  - The exhibitor must avoid causing damage to the structure and finishes around and in the exhibition hall and must provide such evidence, as is required by the organiser, that appropriate and adequate insurance cover is in existence to cover any claims arising from such damage.
- Limit of Liability**
  - All equipment and articles exhibited are at the sole risk, and are the sole responsibility, of the exhibitor. All exhibitors must provide their own insurance cover for fire, theft, damage or loss, incl. Public liability; as the organisers cannot be held responsible accidents to exhibitors, exhibits or attendees.
  - The organisers shall not be held responsible for the loss or damage to or the safety of any property or of any injury to the exhibitor or his/her agents or servants under any circumstances whatsoever by reason of fire, water, theft, accident and any other cause including erection, maintenance and dismantling of stands and equipment or otherwise the negligence of or breach of statutory duty by the organiser, their agents or servants.
  - Whilst adequate marketing of these events will be undertaken to attract the exhibition's target audience, the organisers cannot be held responsible for the quantity or quality of visitors if other activities, events or responsibilities, which are beyond the control of the organisers, deleteriously affect attendance.
  - The organisers will not be held liable for costs associated in regard to any disruption on the day (or set up day) of all exhibitions caused by the enforcement of 'host' site rules and procedures.
  - Should the exhibitors booking be cancelled or terminated by the organisers at short notice, liability will be limited to the value of the individual venue booking fee paid and no claims for any subsequent associated losses will be considered.

# 2011 PATEX

## PRACTICAL APPLICATION OF TECHNOLOGY EXHIBITION

**A UNIQUE OPPORTUNITY FOR COMPANIES TO UNDERTAKE LIVE DEMONSTRATIONS OF ENGINEERING EQUIPMENT INCLUDING:**

DIAMOND CORING DIAMOND WIRE CUTTING ROVS  
SPECIALIST PACKAGES & CONTAINERS ROBOTICS  
DEMOLITION TECHNIQUES DECOMMISSIONING RIGS  
LASER CUTTING... AND MORE!

**Beckermat Technology Park**  
off A595, Nr. Sellafield, Cumbria  
**7th & 8th April 2011**

[www.exhibitions4industry.com](http://www.exhibitions4industry.com)

# 2011 PATEX

- Practical Demonstrations of Technology
- Supply Chain Exhibition
- Key Note Presentations

Focussing on the nuclear sector and more specifically the Nuclear Decommissioning Authority (NDA) decommissioning portfolio, the two-day PATEX "Practical Application of Technology" Exhibition offers a unique opportunity for suppliers to demonstrate specialised technologies, processes and equipment in support of nuclear decommissioning to an audience of key stakeholders and clients.

The event is to be held at a brand new purpose-built and fully serviced engineering facility, just minutes from the Sellafield site's Main Gate and will be supported in parallel by one of Nu-Tech's familiar Engineering & Technology supply chain exhibitions of fixed display stands. There will also be presentations from key individuals on UK and international nuclear experience.

This is an exclusive event which is expected to attract significant interest from neighbouring Sellafield nuclear personnel and invited attendees from throughout the UK.

It will be an action-packed event which will offer unrivalled opportunities for all suppliers to the UK nuclear industry an exceptional platform to undertake practical demonstrations and meet directly with end-users.

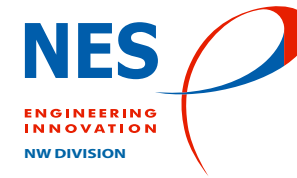

**Beckermet Technology Park,**  
off A595, Nr. Sellafield, Cumbria  
**Thursday 7th  
& Friday 8th April 2011**

[www.exhibitions4industry.com](http://www.exhibitions4industry.com)

Supported by:

In conjunction with:

The event presents a unique opportunity to see live demonstrations of a wide range of specialist equipment in a single convenient location. It is intended that this event will:

- Promote direct contact with end-users from the UK nuclear industry
- Encourage interaction and networking between Tier 2 and Tier 3 suppliers
- Provide a forum for all participants (exhibitors and attendees) to attend keynote presentations on UK and international experience
- Provide first hand experience in the practical applications of technology not demonstrated elsewhere

This two-day event follows in the footsteps of several highly successful exhibitions held at nuclear, science, aerospace and defence establishments throughout the UK which have become leading forums for the promotion of engineering technology and innovation.

To encourage those who want to attend the event as visitors, we will also be organising regular bus transfer from the Sellafield site to ensure PATEX successfully attracts Project Managers, Engineers, Procurement Specialists and Technologists. Such is the anticipated benefit of this event, that key individuals will also be invited from other UK nuclear sites.

## PRACTICAL DEMONSTRATIONS

The PATEX event, will assist the nuclear industry in its day-to-day activities by enabling both existing and potentially new suppliers, the chance to perform live demonstrations of their products and services in a safe environment close to the Sellafield site and the locally based supply chain.

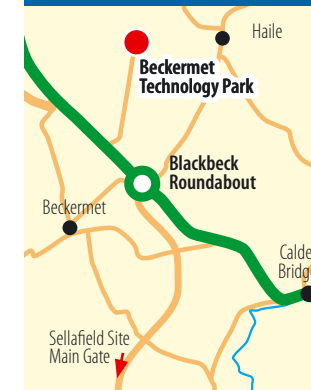

## 'KEY-NOTE' PRESENTATIONS

During each of the four available sessions held over the two-day event, a number of key-note presentations will be incorporated, aimed at providing delegates with valuable information from industry figureheads and experts on topics including:

- Decommissioning Success Stories
- Nuclear New Build
- Sellafield Update
- The Application of Robotics in Decommissioning
- Novel Processes & Technologies
- An International Perspective

### Location

The Beckermet Technology Park is located just off the A595 and only minutes from the Sellafield Main Gate.

## SUPPLY CHAIN EXHIBITION

This parallel exhibition will allow companies who are offering live demonstrations, and other suppliers who have smaller items to display, an opportunity to promote their engineering, technology and innovative products, services, ideas and capabilities in the usual way by bringing along pop-up stands and presentation materials.

Companies wishing to demonstrate smaller appliances can also do so via the parallel supply chain exhibition.

## Booking Form

# PATEX 2011

Arrangements can be made to supply a pre-erected shell stand at extra cost (as indicated in the adjacent price list). Shell stands are covered in a royal blue fabric with a surface suitable for the Velcro fastening of poster, panels and other lightweight display material. Included in the cost of a shell stand is a nameboard, two spotlights and 1 x 3-pin electrical socket.

	Type	Cost
I would like to book space at PATEX 2011 (m <sup>2</sup> x £200)	Y / N	
Pre-erected shell space (if required)	Y / N	
To calculate the cost of your exhibition space, multiply the type area by the price per metre <sup>2</sup> , eg: Type AS: 4.5x £200 = £900	Sub total	
	Please add VAT at 20%	
	<b>Total amount due</b>	

Do you require additional space to carry out a live demonstration of your products?  Yes  No

Please provide brief details here:

Approx. how much space would this require (LxWxH)?

**PLEASE NOTE:** Submit these details with your application for pop up exhibition space and we will confirm if there will be enough room to accommodate your live demonstration requirements. We may not be able to accept all applications for live demonstrations. Once we receive your booking, a full application form will be issued on which you can provide full details. Small appliances can still be demonstrated within the confines of a pop up exhibition stand if there is adequate space to do so.
